

# Install Windows 10 using a Bootable USB Drive

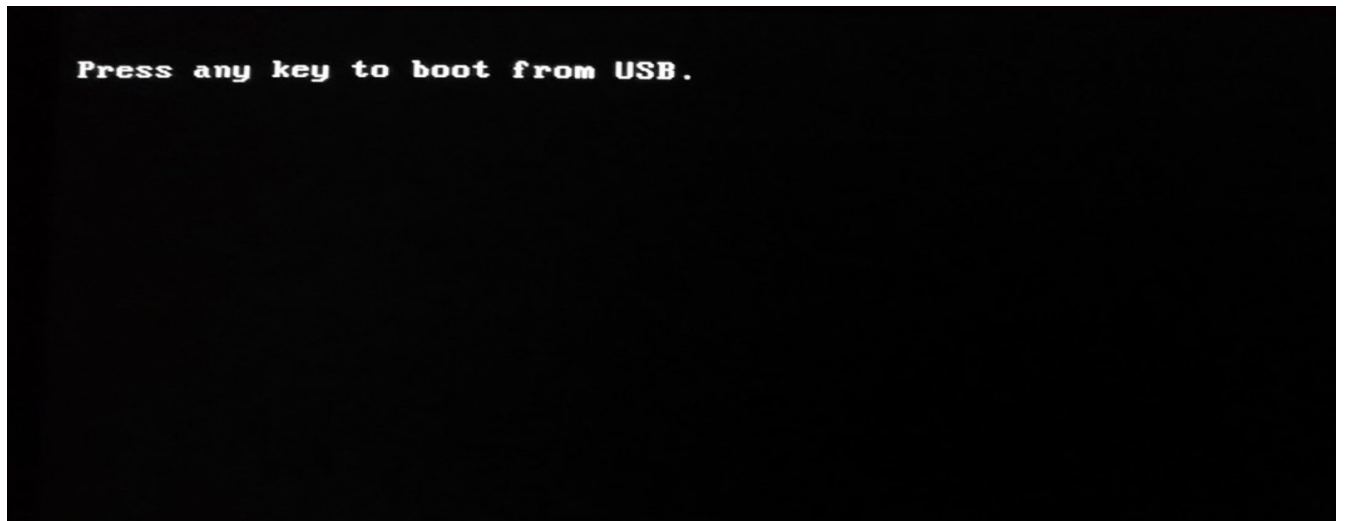

- **Step 1:** Connect the Bootable USB flash drive with your PC and reboot it
- **Step 2:** As soon as your PC boots, press the F11 ( this key will differ from one pc to another ) key to bring up the boot drive selection menu and select the Bootable Windows 10 USB flash drive. This key will differ from one pc to another, so do a quick Google search to find out the correct key to bring up the bios boot menu.

Alternatively, you can also go into the bios of your PC and set the Bootable Windows 10 USB flash drive with the **First boot priority**.

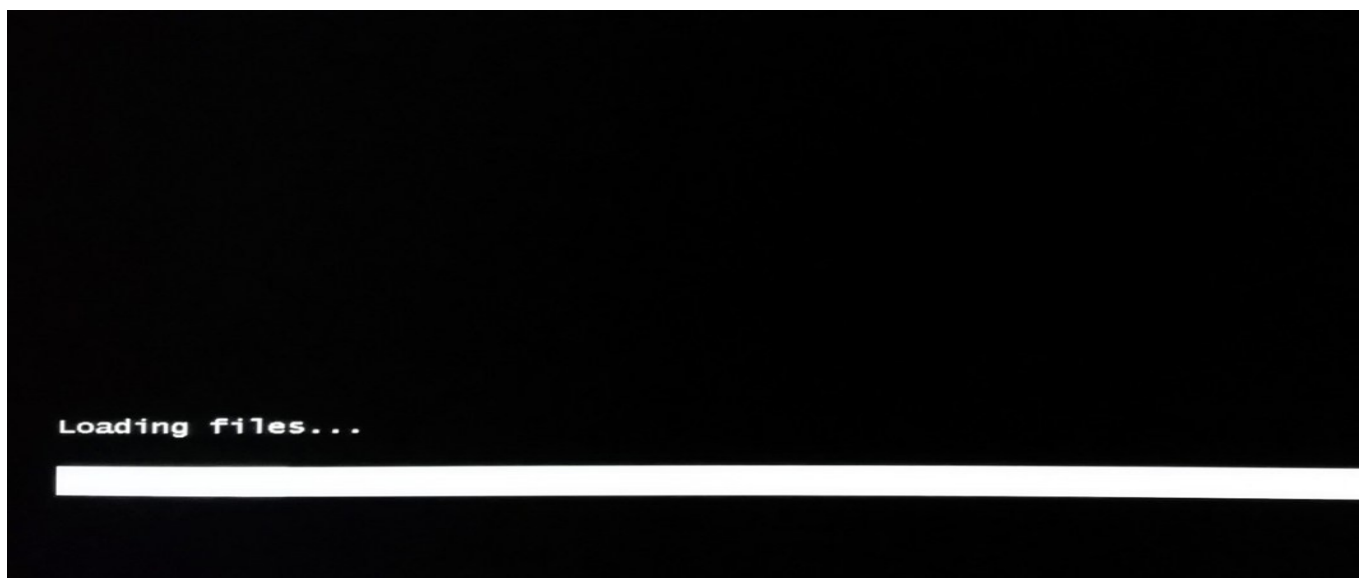

- .....

- Step 3: Press any key when you see the “ **Press any key to boot from the USB option** ”

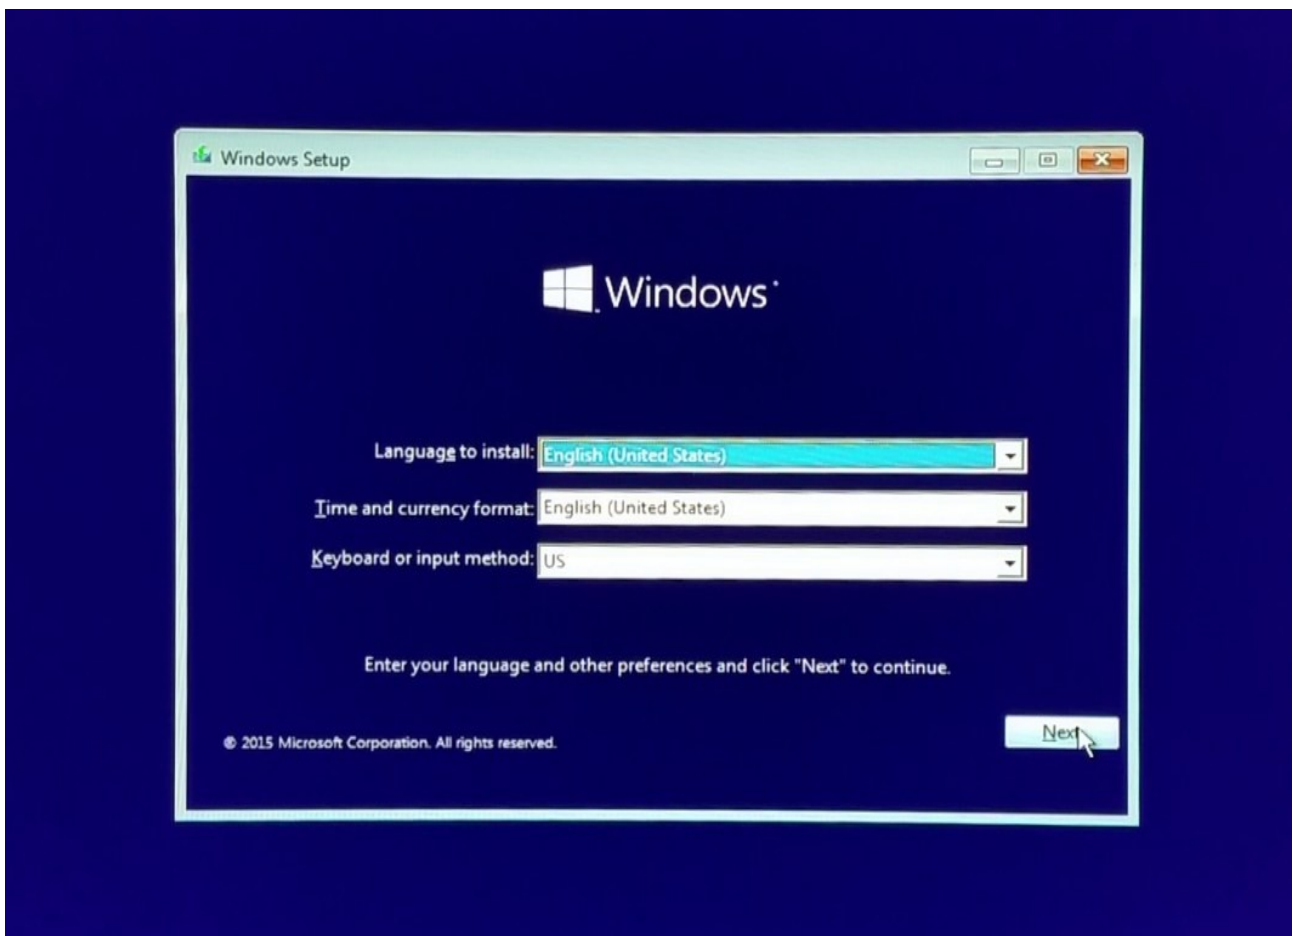

Step 4: Wait for a few seconds for the files to load.

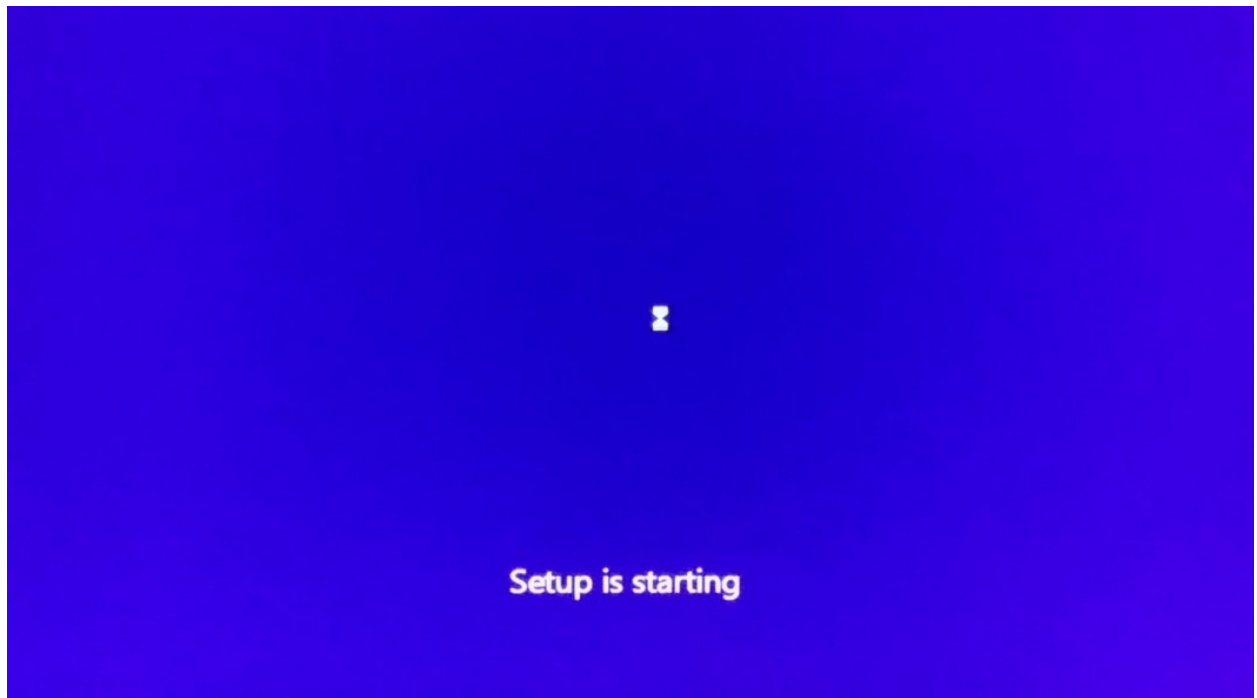

- 
- 
- 
-
